  o Case Study Classroom
  o Level 04
The room numbering system in Evans Hall was designed to assist with wayfinding. All room numbers have four digits: The first digit indicates the floor. The second digit indicates the sector, as shown above with the red numerals. The last two digits are assigned consecutively, with odd and even numbers on opposite sides as you proceed, as shown above with the green arrows. For example, room 2463 is on the 2nd floor in sector 4, as shown by the blue star above.
